Prose	: HIS FIRST FLIGHT
Author	: Liam O'Flaherty
Theme	: Parenting care

The young seagull was alone on the ledge. Unlike his two brothers and sister, he was afraid to fly. He failed to muster up courage to fly. His parents had come around calling him shrilly, scolding him, and threatening to let him starve on the ledge. He had no food. He could find nothing but the dried pieces of eggshell to eat. His parents wanted to teach him to fly. So the mother seagull showed a piece of fish to the hungry young seagull. But he couldn't reach the food. Maddened by hunger, he dived at the fish, to grab it. He had no choice other than to flap his wings and fly towards his meal. He landed on the green sea and sank into it. He was floating on the water. The young birds' family was very happy and they offered him scraps of dog-fish for his first flight. Thus the parental care, his natural bird instinct and his urge for survival prompted him to fly, finally.

Moral: Necessity is the mother of action.

2. Your parents sometimes behave like the young bird's parents. They may seem cruel and unrelenting. Does it mean that they do not care for you? Explain your views about it with reference to the story.

- Parents are our first teachers. Guiding their children at every stage is their primary responsibility. If they fail to do this, the children cannot attain perfection.
- It is said that children start learning and responding even when they are in the womb of the mother. A child which grows, without the guidance of the parents, lack in the art of speech, walking, holding things, eating and even doing their day-to-day basic activities. Children need even toilet training.
- Some children can learn easily as the young seagull's siblings. But few hesitate or struggle while learning new things like the young seagull. To them, the parents have to be harsh for the betterment of their life as we see the parents of the young seagull in this lesson who have to starve until it flies. As the old proverb says "*Bend the twig, Bend the tree*", they may seem cruel and unrelenting. But it is for the good of their children. It is the duty of every parent to educate and teach their young ones the art of life.

Moral: Bend the twig, Bend the tree.

The narrator and Aditya had visited Aditya's village after twenty nine years. They went to Nagen uncle's tea shop. They found Sasanka Sanyal there. 2. 'Man does change with time' - What were the various changes that came about in Aditya? (MDL - 19)

Prose	: THE ATTIC
Author	: Satyajit Ray
Theme	: Man does change with time.

Aditya and the narrator went to visit Aditya's village after twenty nine years. They went to Nagen uncle's tea shop. They found Sasanka Sanyal there. On seeing them, Sanyal began to recite the poem 'Panraksha' by Tagore. Aditya inquired Nagen about Sanyal. He could recognise that the man was Sanyal whom he had deceived a long time ago. So there was a sudden change in his expression. He felt guilty. Once Aditya was jealous of Sanyal, when Sanyal got a medal for recitation of Tagore's poem. Then Aditya took the medal from Sanyal to show his father and never returned it. When Sanyal demanded his medal, Aditya replied that he had missed it. Aditya remembered all these. But Sanyal got angry with Aditya. Aditya justified Sanyal's anger and grievance, since Aditya had committed the guilt. Now he wanted to prove that he was not the same as he had been earlier. He said to Sanyal that man changes with time. Aditya too changed and realized his mistake. So he gave Sanyal the cost of the medal, one hundred and fifty rupees. As Sanyal refused, Aditya handed over the silver medal to him and proved that he has changed with time.

Moral: Time changes and we change with them.

3. Give a brief character sketch of Sasanka Sanyal.

(SEP - 2020, HY - 19, PTA - 1, 3, 4)

Prose : THE ATTIC**Author** : Satyajit Ray**Theme** : Character sketch of Sasanka Sanyal

Sasanka Sanyal led a cursed life. He sold his lands and his house for his daughter's marriage. He lost his wife and only son the year before. He was forced to stay in Jogesh Kabiraj's house who was his father's friend. In spite of his suffering, he showed his sense of self respect by paying money for his tea and biscuits in the tea shop. He recognised Aditya at the tea shop itself. He recited the poem for which he got the medal. He recited it so that Aditya could remember and recognize him. He could not forgive Aditya, who never returned the silver medal. Sanyal became helpless due to old age and poverty. He was a man of innocence who expressed his grievances politely. He admitted that he got angry at the tea shop. Finally he acknowledged that he could not control his anger and behaved indifferently. He did not accept the money for his medal from Aditya. He frankly told Aditya that he wanted his medal back. For him, the silver medal and the recognition were more valuable than anything else. Though Sanyal suffered a lot, he proved that he had an acute sense of self-respect.

***Moral:** Self-respect is the root of discipline.*

They found Sasanka Sanyal in the Nagen uncle's tea shop. Sanyal began to recite the poem 'Panraksha' by Tagore. Aditya inquired Nagen about Sanyal. He could remember his past guilt. During school days, Sanyal got a medal for recitation of a poem. Aditya was jealous of him. He took the medal from Sanyal to show his father. But he never returned it. Now he felt guilty. He wanted to apologize to Sanyal. Aditya searched for the medal and got it in the attic of his house. Aditya wanted to find the weight of the medal. When Aditya offered the cost of the medal, Sanyal refused frankly and told him that he wanted his medal back as he considered it more valuable than anything else. Aditya handed over the silver medal to Sanyal. He proved that he had also changed with time. Thus, this story clearly depicts the change of Aditya's attitude and Sanyal's self- respect.

Lesson : THE LAST LESSON

Author : Alphonse Daudet

Theme : Importance of mother tongue - condition of France after the Franco-Prussian war.

Two districts of France, Alsace and Lorraine, were taken over by the Prussians during Franco-Prussian War (1870-1871). The people were compelled to learn German instead of French. When they knew that French would no longer be taught to them, they realized its importance. Suddenly they developed an inclination towards learning French. The students, the village people, old Hauser, the former mayor, the former post master, and several others were present in the class. They wanted to attend the last French lesson. They eagerly brought their old primers to learn the language. The French teacher M.Hamel said that the French language was the most beautiful, clearest and logical language in the world. The snoring of the Zigzag disturbed Krishnan's family members and their neighbours. When their maid servant, Lakshmi switched on the fan, it was raining papayas and bananas in that room. One slice of over-ripe papaya splattered orange pulp on Mrs. Krishnan's painting. She got angry with Zigzag. Thus it created a great commotion in Krishnan's house.

Moral: He never causes the commotion, He himself is a commotion.

2. What happened when Zigzag was taken to the clinic?

Dr. Krishnan's family refused to keep Zigzag in their house due to its loud snoring. So Dr. Krishnan decided to take it to his clinic. Krishnan warned Zigzag not to sleep in the clinic, but Zigzag began to control the patients in a commanding way. It asked everybody to be silent. Dr. Krishnan was surprised to see the sudden change of the bird. Zigzag's bored behaviour was totally changed. Zigzag kindly comforted the crying children and scolded the naughty kids. Zigzag's recitation of French poetry created laughter among the children. The clinic was so calm with its command.

Moral: When you own a bird, happiness is all around.

3. Narrate the story of Zigzag in your own words.

Dr. Somu requested his cousin Dr. Krishnan to take care of his pet bird, Zigzag, as he was leaving for Alaska. Mrs. Krishnan was not happy with the arrival of the new pet. Dr. Somu sent Zigzag through Visu, his old cook. Zigzag was cool and unmoved with an expression of grumpiness. Arvind brought some fruits and nuts for it. Zigzag picked them up and deposited them on the chandeliers and the blades of the fan. The snoring sound of the Zigzag disturbed Krishnan's family members and their neighbours. When their maid servant, Lakshmi switched on the fan, it was raining papayas and bananas. One slice of over-ripe papaya splattered orange pulp on Mrs. Krishnan's painting. She got angry. So Dr. Krishnan took it to his clinic. Zigzag talked to all the patients in the clinic. It brought a radical change in the noisy clinic. There was an absolute silence. Mrs. Krishnan's ruined painting was sold for Rs.5000. All these co-incidents changed the minds of Dr. Krishnan's family. They wanted to keep Zig Zag with them.

Moral: Nothing is going to get better, until you see things in a right way.

Author	: William Shakespeare
Theme	: Forgiveness is the best revenge
Characters	: Prospero, Miranda, Ariel, Antonio, Sycorax, Ferdinand, Gonzalo

Prospero was the famous Duke of Milan. He was fond of reading magic books. He was exiled by his brother Antonio. Prospero and his daughter Miranda landed on an island. Prospero had some magical powers, which his daughter did not know. She was a kindhearted woman. After twelve years, Prospero wanted to repent his brother Antonio and Alonso-the king of Naples for their wrong deeds. By using his magical power, Prospero raised a violent storm in the sea to wreck his enemies' ship. Ariel, the spirit was ordered to scatter the people on the ship. He did not want to revenge them, but to make them realise their mistakes. Finally, Antonio with tears of sorrow and true repentance begged his brother's forgiveness. Prospero forgave them all. As a dutiful father, Prospero arranged the marriage of Miranda and Ferdinand as they loved each other. At last, he released his faithful spirit, Ariel. It is clear that Prospero is a noble person.

He is somewhat altered by grief, or you might call him a handsome person. He has lost his companions, and is wandering about to find them."

Miranda, who thought all men had grave faces and grey beards like her father, was delighted with the appearance of this beautiful young prince; and Ferdinand, seeing such a lovely lady in this desert place, and from the strange sounds he had heard, expecting nothing but wonders, thought he was upon an enchanted island, and that Miranda was the goddess of the place, and as such he began to address her.

Maya complained that she heard a permanent rumbling sound in her ears even when she was miles away from home and that her ears ached all the time. Arvind confessed that, for the first time in his life, he was actually looking forward to going to school considering it was a calm as a monastery compared to their house. Mrs. Krishnan had lost interest in painting. Zigzag would sometimes wake up briefly when he wanted to eat some fruit, and sometimes he would sit on the veranda looking sulky and bored. Zigzag never spoke to anyone, though everyone tried several times. He only slept. And snored. On the seventh day, Dr.Somu's e-mail arrived. It was, as Dr. Krishnan predicted, ridiculously simple. It has got immediate and long term benefits. Write an article in not more than 150-200 words for your school magazine stressing the importance of physical activities in a student's day to day life.

A Sound Mind in a Sound Body

- By Jansi/Avinash
Class X

The proverb **A Sound Mind in a Sound Body** insists on both healthy body and stable mind. A person's health is a combination of physical, mental and social well being. A healthy body is essential for a healthy mind. First and foremost, everyone should be health- conscious. Good health is ensured by a balanced diet and good exercise. Balanced diet supports our body avoiding excessive fats, minerals, salts, etc. Physical activity or exercise enhances our health and provides us happiness. The second asset of a well composed person is mental health. Cognitive functions are ensured by the stability of one's mind. Yoga is invariably advisable to be a mentally balanced person. It enhances and reinforces concentration and attention at a task in hand.

Both physically and mentally stable persons possess a positive attitude towards life. They become socially responsible, individually productive and globally connected. They are constructive, creative, optimistic, and innovative throughout their life. The world is in need of such people. To sum up, physically strong people possess mental health and are sociable. Hence, all people must be health conscious and avoid all sorts of diseases that are the fruits of idleness and sluggishness.

Cleanliness is Next to Godliness

- By Ramya/Rajan

Class X

TM Model School, Dharmapuri

The proverb 'Cleanliness is Next to Godliness' indicates that cleanliness leads to the health of humanity. Maintaining cleanliness provides hygiene and good health to the people. Everyone is responsible for such a noble task. Residential areas are to be strictly kept clean whereas in our city heaps of garbage are found in the densely populated areas. Unclean and untidy streets cause health hazards to the inhabitants. Undeniably, vendors dispose off the waste wherever they set up a business. Residents of the city dump the waste on bins. Dogs and cattle squatter upon the waste and consume it. Garbage is hazardous to one's health and the surroundings.

Hospitals, schools and industries become the target of such nuisance in our city. Pedestrians throw litter along the streets and roads. People, young and old defecate on roads and streets polluting the environment. The mounds of garbage near schools and hospitals pose a great threat to the health of the residents. Nauseating stench all over the city is a menace to the wellbeing of the city dwellers. Heaps of garbage, lying around remain uncleared for weeks. They are the breeding place for mosquitoes that cause diseases such as Dengue fever, Malaria, Hepatitis, Dysentery and Typhoid.

Grievances have been submitted to the officers. Government's apathy in maintaining congested traffic, controlling dust pollution and fixing filthy potholes is intolerable. Increasing garbage leads to environmental degradation and it also affects our health. To fight against the worsening conditions, regular clearance of garbage is necessary. The city administration must pump men and machines into action. Cleanliness Awareness programmers should be organized in the city. More men and women should be employed to carry out the task. I sincerely, request your intervention to keep the city clean and green.

- iii) Recently while returning home from school you were knocked down by a speeding motorcycle. You escaped with minor injuries. You are Kishore/Kavitha of class XI, studying in GHSS, Coimbatore. Write an article to The Hindu, in about 150-200 words expressing your concern about the increasing number of road accidents due to reckless driving. Also stress the importance of following traffic rules.

Importance of Road Safety Rules

- By Kishore/ Kavitha

Class XI

GHSS, Coimbatore.

Accidents have become a day-to-day affair. Whether on national highways or city roads, most of the accidents are either due to reckless driving or negligence of road safety rules. Besides, the increase in the number of vehicles causes traffic jam. It is to be regulated. Road safety and accidents are crucial issues of today. Almost every day people face accidents, sometimes causing death. In spite of observing road safety, every year, people are ignorant of the rules and impatient while driving. Most of the accidents are caused due to reckless driving. Impatient, negligent drivers overlook the safety rules and speed up their vehicles causing confusion in the traffic.

Highway drivers drive as fast as they can, assuming no hurdles on their way. Rail roads, bypass roads, bordering villages are dangerous due to the cattle crossing. To avoid accidents, immense attention is required while driving. Drivers and pedestrians should strictly follow the safety rules in order to avoid deadly accidents. Safety rules, awareness programmes should be organised at school and college levels. Each panchayat, municipality and city corporation should spread road safety awareness among people. Importance of wearing helmets and seatbelts must be emphasized. Road safety rules should be displayed along the roads as reminders. Let us all join together and spread awareness about road accidents and the importance of following road safety rules to save humanity.

❖ **Collect images of some electronic gadgets and play a JAM (just a minute) game by picking one image and talking for a minute about it in your classroom.**

Hi friends, I'm about to talk about washing machine. Anyone can use a washing machine. All they have to do is to put the clothes in water of machine and push the button, the work is done. It is a time saver. In the sense it does not consume much time to wash the clothes. In times of sickness, a person can use it to wash all their clothes instead of hiring anyone to do all that. But Washing machines consume a large amount of water compared with manual washing. Electricity charges go up when it's used continuously. Washing clothes is a great exercise to the body. But with the advent of washing machine, people lack such exercises. So use washing machine only when you really need it, or else go with manual washing.

SPEAKING (TB - Pg.No.: 197)**F. Exercise****1. Present the review of a movie that you have watched recently.****Review:****2.0**

2.0 is one of the best movies in recent times. The movie is a science fiction that takes the commercial route to entertain us. Director Shankar always experiments high-concept movies like Robot (2010, Tamil title Enthiran) and I (2015) before, too.

Story: Dr Vaseegaran (Rajinikanth) and his android assistant Nila (Amy Jackson) are called in for help after mobiles start mysteriously flying out of the hands of people in Chennai. Vaseegaran summons his trusted robot Chitti (Rajinikanth) to ward off the bird-shaped supernatural powers of Pakshirajan (Akshay Kumar). Many birds die because of radiation from mobile phones. Pakshirajan, being a bird lover and ornithologist was hurt seriously and hangs himself in a telephone tower. The Aura of Pakshi and died birds form the supernatural power. Chitti destroys the Pakshirajan and is appreciated by everyone. It would be nice if the story ends here. But it starts again as Pakshirajan gets back his power. This time Chitti cannot destroy it, as Pakshi hurts Dr Vaseegaran whenever he makes an attack. With the comeback of Chitti 2.0 (Chitti with a red chip) and with the help of Kutti (Microbot - Chitti V 3.0), Pakshi is destroyed. And the movie ends with a song for Chitti and Nila - endhira Logathu Sundariye song.

Shankar's screenplay gives fans of the superstar plenty of moments to cheer for. Rajinikanth's and Akshay Kumar's performance dominates the movie. These two superstars are one of the main reasons why 2.0 feels like a grand, big-ticket movie. The makeup and costumes are the highlights of the movie, too.

The sight of mobiles covering up an entire road, a forest and forming the giant eagle, are most certainly 'wow' worthy. But the scientific explanations provided for telekinetic control of mobile phones and the antagonist's supernatural abilities aren't all that convincing. Nevertheless, this is a Rajinikanth movie and questioning cinematic liberty and logic-defying creativity is unwarranted.

2. Give the review of a book that has interested you a lot.**Review:****MAPPING THE WORLD**

The book 'Mapping the World' by Ralph E. Ehrenberg is published by National Geographic as an illustrated history of Cartography. Ralph E. Ehrenberg has lectured and consulted widely on geographic resources, the history of cartography and management of cartographic collections.

With running commentary by Ralph E. Ehrenberg, this book tells a fascinating story of geographic discovery, scientific invention, and the technique of mapmaking. 'Mapping the World' provides amazing details on map. The book deals with broad historical and cultural range, unmatched variety of maps from the finest map collections in the world more than one hundred illustrations and a fresh and authoritative perspective on the history of cartography. 'Mapping the World' talks about the uses of maps as well as how to differentiate between the type of map projection and type of map.

Every day people around the world use maps and get useful information. We could make a colourful map that shows the amount of pollution in different areas, or it could be a population map, or it could even be a map that shows the 50 states of the USA, their capitals and borders! Our last step in this amazing excursion is the near future, where we see some hypothetical solutions as to what maps will be used for. Currently, we are working on better virtual map technology

In the early 1900s, people had to tug a lot of maps around to find their way from place to place, or just keep asking for directions. Now, scientists have been able to put maps on phones by using Global Positioning System (GPS). It is amazing how much maps have changed technology and the world in this century. "Mapping the world" is a treasure box filled with the gems of cartography. This book will be very useful for the people who want to be cartographers.

Water use in a country depends very much on its efficiency in water use. Even in most technologically advanced country, the efficiency of irrigation is only 30 percent. As the people of California, in the United States of America, and Israel use water ethically and with enormous care the efficiency in use is high. They are also good in water management activities. For example, drip irrigation has been used in Israel as well as California to best effect. The farmers and horticulturists make the water drip drop-by-drop at the roots of the crop plants. This system of irrigation has now come into use in India too. With this method of irrigation a high output of crops is being harvested with small amount of water. Elephants are considered keystone and umbrella species as they play a key role within the environment that they live in. As elephants live in herds and require large habitable areas, they tend to change the surrounding atmosphere from forests to grasslands and help to disburse the seeds in an ecosystem that has no natural means of pollinating the area. An elephant requires around 70 to 100 litres of water everyday. Therefore, the elephants in dry zones and dry seasons, dig holes in riverbeds in order to collect water and help sustain water for other species as well. The elephants' habit of clearing the path they roam has acted as natural buffer zones when forest fires take place.

Books about planets and space exploration,

Memory Poems

1. Life

Let me but live my life from year to year,
With forward face and unreluctant soul;
Not hurrying to, nor turning from the goal;
Not mourning for the things that disappear
In the dim past, nor holding back in fear
From what the future veils; but with a whole
And happy heart, that pays its toll
To Youth and Age, and travels on with cheer.
So let the way wind up the hill or down,
O'er rough or smooth, the journey will be joy:
Still seeking what I sought when but a boy,
New friendship, high adventure, and a crown,
My heart will keep the courage of the quest,
And hope the road's last turn will be the best.

- Henry Van Dyke

3. I am Every Woman

A woman is beauty innate,
A symbol of power and strength.
She puts her life at stake,
She's real, she's not fake!
The summer of life she's ready to see in spring.
She says, "Spring will come again, my dear.
Let me care for the ones who're near."
She's The Woman - she has no fear!
Strong is she in her faith and beliefs.
"Persistence is the key to everything,"
says she. Despite the sighs and groans and moans,
She's strong in her faith, firm in her belief!
She's a lioness; don't mess with her.
She'll not spare you if you're a prankster.
Don't ever try to saw her pride, her self-respect.
She knows how to thaw you, saw you - so beware!
She's today's woman. Today's woman, dear.
Love her, respect her, keep her near...

- Rakhi Nariani Shirke

5. The Secret of the Machines

We were taken from the ore-bed and the mine,
We were melted in the furnace and the pit
We were cast and wrought and hammered to design,
We were cut and filed and tooled and gauged to fit.
Some water, coal, and oil is all we ask,
And a thousandth of an inch to give us play:
And now, if you will set us to our task,
We will serve you four and twenty hours a day!
We can pull and haul and push and lift and drive,
We can print and plough and weave and heat and light,
We can run and race and swim and fly and dive,
We can see and hear and count and read and write!
But remember, please, the Law by which we live,
We are not built to comprehend a lie,
We can neither love nor pity nor forgive,
If you make a slip in handling us you die!
Though our smoke may hide the Heavens from your eyes,
It will vanish and the stars will shine again,
Because, for all our power and weight and size,
We are nothing more than children of your brain!

- Rudyard Kipling
